

Arthur

What am I?

Guinea Pig

Where do I live in the wild?

South America. I like to live in a place with lots of long grass. I like to hide in the grass and eat it. I also make holes under the ground called burrows. I can be safe in my burrow.

How am I looked after as a pet?

A good hutch, a friend to live with. The chance to run around outside and eat grass. Cuddles!

What do I eat?

Grass, hay, vegetables, some fruit and a little bit of guinea pig food.

What do I look like?

Small, soft and furry. Short, little legs and no tail. My nose is always twitching. Guinea pigs can have pretty patterns with different colours.

Why do we love Arthur?

Arthur is a very calm guinea pig who will sit really still on his cushion for people to give him some fuss.
