

HOLLY

WHAT AM I?

Corn Snake

WHERE WOULD YOU FIND ME LIVING IN THE WILD?

Mainly in the corn fields of America but sometimes in overgrown fields, forest openings, trees, palmetto flatwoods and abandoned or seldom-used buildings and farms

HOW DO YOU LOOK AFTER ME AS A PET?

I live in a vivarium which is a perfect size for me as I don't like to live in an environment which is too big for me. It has a special light which keeps me nice and warm a bowl of fresh water and I have hides and branches so I can hang out and chill when I'm not meeting new people.

WHAT DO I LIKE TO EAT?

I am what is called a carnivore which means I only eat meat. So I eat one mouse every week. I am so greedy I don't need asking twice. In the wild the farmers like us corn snakes as we keep all the mice down so they don't eat his corn!

WHAT DO I LOOK LIKE?

I've got a lovely repeating pattern which is brown and orange, I've got a long tongue which you will see me flicking in and out I am not being rude it just that I don't have any ears so I use my tongue to help me feel the vibrations. I also have little beady eyes, it looks like I never sleep because I don't have eyelids so can't close my eyes. I don't have any arms or legs so use all my muscles and bones in my body to help me move along

WHY DO WE LOVE HOLLY?

Holly is a friendly snake she is very shy and often hides away but when she is in your hands she loves to wrap herself around your fingers to feel safe by holding on.

MY STORY

Hello I'm Holly, I came to live with Michala at Lion Learners Barnsley from a Rescue in Wakefield. I was named Holly because I was found by the RSPCA on Christmas Day. I am around 4 years old and still quite small so need to grow some more. I am a friendly snake but like to hide away until no one is watching then I will pop my head out to have a nosey around. I love to wrap around your fingers and wrist to feel safe by holding on.
