

HARRY

WHAT AM I?

A Lion head rabbit but I am not scary like a real lion.

WHERE WOULD YOU FIND ME LIVING IN THE WILD?

We see lots in the wild, all over the world even in this country, usually in meadows, woods and grasslands, somewhere we can dig holes and make a burrow to keep warm and safe with all the other rabbits

HOW DO YOU LOOK AFTER ME AS A PET?

I live in a big hutch with a run attached so I can eat all the grass. I live with my wife bun Millie. We need at least 1 friend to live with or we get very lonely. We like tunnels and toys to play with and lots of cuddles

WHAT DO I LIKE TO EAT?

I get my fresh vegetables and herbs on a morning with lots of lovely crisp hay which I eat all day long aswell as grazing on lots of grass, this is important for me as it keeps my teeth in good condition, then for my tea I get some rabbit pellets and lots more hay. Its important I'm never without hay has it keeps my tummy working

WHAT DO I LOOK LIKE?

I've got lots of fur around my head which makes me look like a Lion and I have got a very fluffy body. I've got big brown eyes on the side of my head so I can keep a look out for anything scary. I've got big floppy ears and strong back legs so I can hop away and jump out of my run when Michala isn't looking Sssshhhh!!!

WHY DO WE LOVE HARRY?

Harry is very fluffy and cuddly, he loves sitting on his cushion to get lots of strokes and cuddles.

MY STORY

My name is Harry the Lion head rabbit and I live with my wife bun Millie and Michala who looks after us at Lion Learners in Barnsley. I was given to Michala as my last owner was too busy to look after me. I thought I was in charge but it is definitely Millie who is the boss. I live in a 2-story hutch with a massive

run attached so I can run around on the grass. I always try and dig holes in the garden and blame Millie. I enjoy meeting lots of new people because I get to snuggle in my special cushion and get lots of cuddles and attention.
