

MILLIE

WHAT AM I?

Mini lop rabbit

WHERE WOULD YOU FIND ME LIVING IN THE WILD?

You could find us living all over the world even in this country, usually in meadows, woods and grasslands, somewhere we can dig holes and make a burrow to keep warm and safe with all the other rabbits.

HOW DO YOU LOOK AFTER ME AS A PET?

I live in a big hutch with a run attached so I can eat all the grass. I live with my husband Harry. We need at least 1 friend to live with or we get very lonely. I've got a special hay box which I hide in so Harry can't find me and I get to eat all the best bits of hay

WHAT DO I LIKE TO EAT?

I get my fresh vegetables and herbs on a morning with lots of lovely crisp hay which I eat all day long aswell as grazing on lots of grass, this is important for me as it keeps my teeth in good condition, then for my tea I get some rabbit pellets and lots more hay. It's important I'm never without hay as it keeps my tummy working. My favourite treat is the tops of a carrot

WHAT DO I LOOK LIKE?

I'm small and furry with floppy ears and big brown eyes so I can keep an eye on Harry. I have big back legs for hopping away.

WHY DO WE LOVE MILLIE?

Millie is small but a very cheeky bunny who loves cuddles and attention and tries to hop off her cushion when we aren't watching!

MY STORY

Hello! My name is Millie the mini lop rabbit and I live with my husbun Harry and Michala who looks after us at Lion Learners in Barnsley. I was given to Michala as my last rabbit best friend didn't like me anymore and Harry needed a wife. I am the boss and Harry is happy for me to be in charge, we always go everywhere together now as we hate to be apart. I live in a 2-story hutch with a massive run attached so I can run around on the grass and help Harry dig holes. I enjoy meeting lots of new people but let Harry do most of the work.
