

# Cookie

**What am I?**

Mini Rex Rabbit

**Where do I live in the wild?**

Wild rabbits are found around the world, usually near lots of grass and somewhere they can dig holes (burrows) to live and hide in

**How am I looked after as a pet?**

I need a good rabbit hutch, a friend to live with, plenty of cuddles and the chance to run around outside.

**What do I eat?**

Grass, hay, green vegetables, carrots and some rabbit nuggets. Kale and carrots are my favourites!

**What do I look like?**

I have big eyes on the side of my head let me look all around to see if there are any dangerous animals coming. I have big ears and back feet for hopping.

**Why do we love Oreo?**

Oreo is a very outgoing and friendly bunny who enjoys going to new places. He is friends with everyone. He is very soft, and has a beautiful coat pattern.

### **My Story:**

My name is Cookie the Mini-Rex Rabbit. I came to live at Lion Learners East Midlands when I was 3 months old. I came from a lovely lady who breeds rabbits. I am a relative of older bunny Theo and my mum looks just like him!

I am a very lively young bunny with lots of energy! I love to run around the garden. I also run up and down in excitement when my veg arrives for breakfast each morning! Kristan says I am the most affectionate rabbit she has ever met! I love to come over to say hello and have a bit of fuss, even during my garden playtime.

I am told I am a very calm, clever and well behaved bunny . I learnt very quickly to sit on a cushion for people to make fuss of me. I enjoy visiting different places as I'm quite a nosy boy.
