

Basil & Sage

What am I?

Hissing Cockroach

Where do I live in the wild?

Madagascar—in the rainforest where it is warm and wet and there are lots of trees and plants.

How am I looked after as a pet?

A tank with lots of soil and bark. A heat mat underneath to keep me warm. Water sprayed onto the soil everyday. Some leaves or fruit to eat.

What do I eat?

Plants—leaves, fruit, salad.

What do I look like?

A big creepy crawly! A hard, shiny, brown body. 6 legs. 2 big long antennae. The boys have 2 little horns on top of their head.

Why do we love them?

They are very calm and friendly ladies who can be handled by anyone.
