

# Oreo

**What am I?**

Mini Rex Rabbit

**Where do I live in the wild?**

Wild rabbits are found around the world, usually near lots of grass and somewhere they can dig holes (burrows) to live and hide in

**How am I looked after as a pet?**

I need a good rabbit hutch, a friend to live with, plenty of cuddles and the chance to run around outside.

**What do I eat?**

Grass, hay, green vegetables, carrots and some rabbit nuggets. Kale and carrots are my favourites!

**What do I look like?**

I have big eyes on the side of my head let me look all around to see if there are any dangerous animals coming. I have big ears and back feet for hopping.

**Why do we love Oreo?**

Oreo is a very brave and nosy bunny who enjoys going to new places. He is friends with everyone. He is very soft, and has a beautiful coat pattern.

## **My Story:**

My name is Oreo the Mini-Rex Rabbit. I came to live at Lion Learners East Midlands when I was 6 months old. I came from a family who was looking for a new home for me.

I am a very lively young bunny with lots of energy! I love to run around the garden. I also run up and down in excitement when my veg arrives for breakfast each morning! Before I moved to live with Kristan I lived on my own. Now I have lots of new friends including my house mate Theo. It took me a little while to win him over but we are best buddies now.

I am told I am a very brave and clever bunny. With Theo's help I learnt very quickly to sit on a cushion for people to make fuss of me. I enjoy visiting different places as I'm quite a nosy boy.
