Oreo & Dolly

What are we?

Rex & Mini Lop Rabbits

Where do I live in the wild?

Wild rabbits live all over the world in grassy habitats. They dig burrows under the ground for protection from predators and the weather.

How are we looked after as pets?

We have a large indoor hutch to sleep in at night. During the day we love to be out in the garden so we can eat grass and run around. We don't like to be rained on though, so we have out own gazebo to shelter under and an outdoor hutch to relax in if we want to.

What do we eat?

We have plenty of grass or hay to graze on all the time. For breakfast we have a bowl of greens and in the evening we have a small portion of rabbits nuggets.

What do we look like?

Oreo is a Rex rabbit with velvety black and white fur and big ears that stand up when I am listening. Dolly is a very fluffy grey and brown bunny with big floppy ears and furry feet!

Why do we love Oreo & Dolly?

Oreo & Dolly are best friends! They are both very gentle and laid back., making them easy for anyone and everyone to handle. They will sit calmly on their pet cushions on you lap so you can make a fuss of them.

Our Stories

Oreo is our most experienced bunny. We rehomed him from his previous family when he was 6 months old. He lived with Theo for nearly 4 years. When we lost Theo as an old man we began searching for a new companion for Oreo. Dolly came from a breeder in Birmingham and the pair very quickly became best friends. Despite being a young bunny Dolly is very calm and confident.

Where can we visit?

Almost anywhere!

Schools, parties, care homes. nurseries, pre-schools, events and anywhere else you can think of!

We can be handled by children and adults of all ages.
